Protection from theft of your catalytic converter

Since 1975, the U.S. has required all vehicles powered by gasoline or diesel to have at least one catalytic converter to help reduce the contaminants emitted by exhaust. **Thefts of catalytic converters have rapidly increased 1,930% since 2018.**

SECURITY CODE ETCHING

The **Secure-A-Cat** theft deterrent system provides added protection by permanently etching a security code and MAG's toll free number onto your catalytic converter.

Even if the security label is removed, the etching remains tracing back to you and your vehicle.

PRECIOUS METALS

Catalytic converters are attractive to thieves because they can be **worth several thousand dollars on the black market** due to the precious metals like rhodium, palladium, and platinum that they contain.

45 Rh Rhodium 102.906	46 Pd Palladium 106.42	78 Pt Platinum 195.085
\$20,000 per ounce	\$2,938 per ounce	\$1,128 per ounce

Value per ounce as of March 2022. Source: www.kitco.com.

REPLACEMENT COSTS

The cost to replace a catalytic converter can run between **\$1,200 and \$4,000** for the parts and labor depending on the make and model of your vehicle. The majority of the cost will be the catalytic converter due to the precious and expensive metals used in the interior construction of the part.

\$1,200 —————  **\$4,000**

The **Secure-A-Cat** theft protection system provides the following:

PREVENTION

- A highly traceable security label is installed directly onto your catalytic converter providing permanent traceability even if someone tried to remove the label
- Highly visible warning decals are placed on your driver and passenger windows to alert thieves you have the anti-theft protection system installed

PROTECTION

Secure-A-Cat provides a limited warranty* so you can rest easy knowing you are protected. If your catalytic converter is stolen you are eligible to receive reimbursement benefits for out of pocket expenses related to the theft such as:

- Insurance deductible
- Repair or replacement cost of the catalytic converter
- Total loss benefit when your vehicle is declared a total loss by your primary insurance

*See policy terms and conditions for specifics and limitations.
